

October 2015

To whom it may concern,

Martine Valentine is a PRH Associate for PRH Australia and is presently involved in the training program for the facilitation of groups using the PRH methodology.

This methodology is centred on the growth of the person.

The training requires Martine to plan an itinerary for a series of short modules, to apply this itinerary and to evaluate her work according to criteria set in the training program. Martine will be supervised by a licensed PRH educator who, in turn, refers to designated members of PRH-International.

Martine is bound by professional confidentiality regarding what is shared by the participants in these workshops.

This training is reviewed annually.

Current year: 1/11/15 – 1/11/16
